This newsletter is dedicated to telling THE TRUTH as seen thru the eyes of Biorhythm Character Analysis and Compatibility.

## JOHN W. HINCKLEY, JR

I am not positive of this date. If someone has another one I would appreciate having it.

Hinckley born 5-29-55

Confidence 4 (65%)

Emotional 2 (86%)

Mental 13 (21%)

Home and family is very important to John (#2 emotional), & yet he was wandering. Why? John is a martyr type who is attracted to trouble (21% mental). He thinks of original ways to do it. He is not afraid to get involved with self-destructive things (65% confidence).

John had an emotional critical on Mar. 29th, the day before he allegedly shot the President. President Reagan had an emotional critical on the day he was shot (3-30-81). He had a physical critical on Apr. 1st and felt tired that day.

Hinckley will spend the rest of his days in prison if he is found guilty. He then will have a family that will not put him out.

**3 FOR 2 OFFER** - Ordering 2 biorhythm character analyses will get you one free. They must be ordered at the same time. Offer expires Sep. 1, 1981. \$16 for 3 character analyses, or \$8 for one. Send birthdates to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311.

**ALEXANDER HAIG** Secretary of State was born 12-2-24  
Confidence 7 (39%)  
Emotional 21 (50%)  
Mental 27 (64%)

Haig has been getting upset lately. First was a power struggle near the end of Mar. with President Reagan. Haig wanted to be head of the Crisis Management Team. The President wanted Vice President Bush to head it.

When the President got shot Haig said he was 3rd in line for the Presidency. It seems that is not so.

Why is Haig behaving this way?

Haig is a combination Child-adult (#21 emotional). At times he will seem adult and other times childish. He might sulk & pout if he does not get his way. His ego is strong & that ego got hurt.

Haig would naturally care about people and things. He wants to please. That wanting to please is very strong in him. He is opinionated & needs to have people listen to him (64% mental).

Haig is only 43% emotionally compatible with the President. That means they would like one another a bit but there is some distrust. They are 94% mentally compatible so would try to outwit the other.

Haig feels insecure & lacks confidence (39%). He is part loner adult & part outgoing child. It is the child part that makes him get in the public eye for attention.

## MARATHON RACES

On Mar. 29, 1981 a 26 mile marathon race was run in Los Angeles. The first male & first Female to cross the finish line each won \$25,000. Both of these people were tall and had long legs. A person with short legs has to move them more to cover the (continued on page 2)

Read my BIORHYTHM COMPATIBILITIES column in the National Singles Register. If you can't find a copy on the newsstand write to NSR, P.O. Box 567, Norwalk, CA 90650. Tell them I sent you.

## PARENTS WITHOUT PARTNERS

If you are a single, divorced or widowed parent, look up your local PWP chapter in the phone book. No need to be alone. You'll have instant friends.

## FEAR OF HEIGHTS

I wonder if a lot of adults have fear of heights because they had been tossed up in the air when they were babies.

**DIET SODA** stimulates the appetite. They have salt. That makes the body retain water.

same distance. Seems a handicapped should be given for the race to be equal.

## PEN PALS

MAY 1981

One Pen Pal member sent in his picture to be sent to his match. I think that is a fantastic idea and any Pen Pal member is welcome to do this too.

"True Love's a Many Splendored Thing."

Would you like to have Pen Pals & friends who are at least 60% like you?

Your birthmo/day/yr \_\_\_\_\_

Race \_\_\_\_\_

Male/Female \_\_\_\_\_

Want Male \_\_\_\_\_ Female \_\_\_\_\_ Either \_\_\_\_\_

Age Limit \_\_\_\_\_ to \_\_\_\_\_

Your name \_\_\_\_\_

address \_\_\_\_\_

City/State/ZIP \_\_\_\_\_

Phone ( ) \_\_\_\_\_

Send \$10 & a long self-addressed stamped envelope or \$11 for each match to Irene Hamlin Stephenson, P.O. Box 892-PP, Chatsworth, CA 91311

If I do not find a match, \$10 of your money will be cheerfully refunded.

Please be patient.

You have nothing to lose only to gain.

If for some reason you do not get a response from your PEN PAL, please let me know. Send another self-addressed stamped envelope & you will be put back into PEN PALS free.

**SUZANNE SOMERS** - was born

10-16-45. Her personal biorhythm numbers are:

Confidence 20 (74%)

Emotional 14 (0%)

Mental 27 (64%)

These personal numbers show what a person is like in their heart.

Suzanne would love to be rich (74% confidence). She needs luxuries & to indulge herself. Suzanne was getting \$35,000 a show to play Chrissy on "Three's Company".

She fired her manager who had gotten her up to where she was. She hired her husband, Alan Hamel, to be her manager. A husband is hardly a good judge of what a wife is worth to the public. They asked \$150,000 a show plus some of the profits.

Among themselves John Ritter & Joyce DeWitt & Suzanne had agreed to ask for raises together. Suzanne did not honor that agreement.

Suzanne is a natural child (#14 emotional). She might become a humanitarian when she matures. She cares mainly for herself. She needs more attention than the average & will do most anything to get it. She is a born actress who will play the role of a martyr to get people on her side.

Being a natural child she will solve problems the way a child would. She said the public has forgiven her for giving out bad checks when she was having trouble surviving. "Everyone does it, don't they?" she said. No, everyone does not do that. Being a natural child & needing to have things she would have trouble managing money. It would be difficult for her to distinguish a necessity from a luxury.

Suzanne has been on a number of talk shows playing the innocent & role of the martyr. People do not take advantage of her, it would be the other way around. She needs to have people listen to her (64% mental).

John & Joyce are angry with her now because she went against their agreement.

"Three's Company" has been such a big success because the 3 lead people are very compatible. The audience feels that. Now Suzanne in her need to be rich & her selfishness, has ruined it for all of them.

Suzanne has not been signed for the new season. If she has troubled times it might make her mature.

## COST CONSCIOUS?

If you want an employee who will save you money & not waste what you have, pick one with a low physical percentage. They get more joy from saving than spending & it does not matter who the money belongs to. These people can be one of your best employees if you give them pats on the head. They lack confidence & need praise to perform at their peak.

Order Personal Biorhythm Numbers at \$1 per set. Send birthdate (month, day & year) and self-addressed stamped envelope to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311.

## JOHN SPENKELINK - MURDERER

John Spenkelink was executed in 1979 for murdering a hitchhiker. Recently his mother had the authorities exhume his body. She believed he was murdered before he was executed. She said he was going to tell of a scandal that had to do with the Florida prison he was in.

His body was exhumed. They did not find any foul play.

What kind of man was John Spenkelink? Born 3-29-49  
Confidence 2 (83%)  
Emotional 14 (0%)  
Mental 21 (27%)

He was fearless (83% confidence). He cared mainly for himself (#14 emotional). He was a martyr type who was attracted to trouble (27% mental). Not everyone with this personality combination becomes a murderer.

Someone with a #14 emotional cares mainly for themselves when they are young. They need more attention than the average & will do anything to get it. If they have been taught to get their attention in a positive way, by doing for others, they will become humanitarians when they mature. They are usually charming & outgoing. If the parent/s

respond to their charm in a positive way they will learn to use their charm. If the parents do not respond they will have to do negative things instead to get attention.

That combination of the high confidence & being a martyr will make someone get involved with self-destructive things & relationships. He would rush in where angels fear to tread. Natural martyrs get involved with the authorities at some time in their lives, be it thru trouble or having them as friends.

**ANN-MARGARET & ROGER SMITH** - Roger Smith, the husband of Ann-Margaret, has a mild form of MS. It is my contention that most dis-eases (not at ease) are what people use to get out from under.

#### PERSONAL BIORHYTHM NUMBERS

	Physical	Emotional	Mental
Roger Smith 12-18-32	13 (13%)	23 (64%)	26 (58%)
Ann-Margaret 4-28-41	19 (65%)	22 (57%)	9 (46%)
Compatibility	6 (48%)	1 (93%)	17 (3%)

These two have been married 17 years. Ann-Margaret said they both are surprised this has happened. They love one another very much (93% emotionally compatible).

Roger used to be an actor (77 Sunset Strip) but got out of it to manage Ann-Margaret's affairs. He does not like the limelight because he is basically a loner (#23 emotional) who would be happiest living alone & having a romance with someone who lived elsewhere.

Ann-Margaret has a nice amount of confidence (65%). Roger lacks confidence (13%). Having people lean on him is a burden. He can barely hold himself up. He has reached the point in life where he needs to be out from under & men are not allowed to admit out loud or to themselves that they have had enough. To get out men have to get sick or die. Because Roger & Ann-Margaret love one another he did not have to die. Ann-Margaret says he spends a lot of time in bed now. That is perfect for someone with a low physical (13%). When the stress gets heavy the MS gets worse.

Now she has to keep stress from him. She can handle taking care of people better because she has more stamina (65%). Roger might have been telling her that he needed the pressure taken off but Ann-Margaret & Roger can not hear what the other is saying because they are only 3% mentally compatible.

Both Ann-Margaret & Roger are the types who want to please (#23 & 22 emotional). Because Roger is so low on stamina (13% physical) that would become a big burden for him because he has trouble saying no to those who want to use him. A man can't say he is tired without sounding weak. They both need time to themselves but they were married and worked together. That is too much togetherness especially for people who are natural loners, which they both are.

#### U.S. ECONOMY

Why is this country in such terrible financial straits? Why is the problem not being solved even tho we have economists working for the government?

The economists tend to be ones who have the low mental percentages. They are good at the detail work. The ones in power tend to have high mental percentages. The low & high are too far apart to hear what the other is saying or how the other thinks. There is a distortion & "You're not listening to me." The ones in power would be afraid they would lose some of that power if they listened to anyone else.

People who are in the middle mental range can hear what the low & high mental people are saying. Ronald Reagan has a 58% mental. He hears. He does not have a great need for power. His need is to have people listen to him. He is a natural teacher and can interpret for the low and high mental people.

**LEARN BIORHYTHM CHARACTER ANALYSIS** - Now you can learn Biorhythm Character Analysis yourself for \$25. You can learn the formula & what the physical, emotional & mental numbers mean. You can have fun seeing what everyone is like behind what they pretend to be. It can change your life for the better. Send \$25 to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311.

#### NO TOOTH DECAY

Cheese & Peanuts were found to be one of the few foods that don't promote decay in the teeth.

THE TRUTH MAY 1981

TAYLOR AND WARNER - Elizabeth Taylor said she is suing the National Enquirer for saying her marriage is on the rocks. They have been married longer than I thought they would be.

PERSONAL BIORHYTHM NUMBERS

		Physical	Emotional	Mental
Elizabeth Taylor	2-27-32	9 (22%)	10 (28%)	24 (46%)
John Warner	2-18-27	4 (65%)	25 (79%)	11 (33%)
Compatibility		5 (57%)	15 (7%)	13 (21%)

The only thing they have in common is a physical attraction. The love is only 7%. They might not even like one another. They are only 21% mentally compatible so there should be a lot of shouting trying to get the other to hear.

Both are natural martyrs (46% & 33% mental). They would rather argue than be bored. If life got boring they would start something. The article in the Enquirer said Taylor was bored with life in Washington. They are attracted to trouble. They can hang onto their mistakes beyond all reason.

Elizabeth and John are only 28% alike. They would need to be at least 60% alike to be happy together.

Elizabeth was very compatible with Richard Burton. It is my feeling she loved him so much that she would feel she was cheating on him if she married someone she could love. She might assume that love hurts. The lack of love hurts. Richard was drinking and not giving the love she needed. To be able to marry Warner she would have had to stifle her loving emotions. She was on the rebound when she married Warner.

You can order an indepth Biorhythm Compatibility of your own. Send two birthdates (Month/day/year) & \$12 for each compatibility to Irene Hamlin Stephenson, P.O. Box 892-TRU, Chatsworth, CA 91311.

DIS-EASE (NOT AT EASE)

My research has led me to believe cancer & other dreaded diseases are just that. When a person is "not at ease" or miserable in a relationship, or situation, they might subconsciously choose to die rather than get out or change. Hard to believe? It was shocking to me but the numbers have shown that over and over again. When people marry & the love is lacking (low emotional compatibility) & they do not believe in divorce, one is likely to get cancer, or some other deadly dis-ease in order to get out. Their friends

might think they are happily married. Some have learned to cover up how they truly feel. They are ashamed. They made a mistake. Most have been taught it is a disgrace to divorce. A divorce could save their life. It is usually possible to pick out the one who will get the dis-ease. Some who have very low mental percentages believe they are right ALL the time & would "rather die" than admit they were wrong about anything especially something as important as choosing a marriage partner. There should be no shame in picking a wrong partner because it is usually done when we are too young & under duress to marry. But, these people are stubborn & do not want the shame of having "everyone" know they were wrong.

Also among the low mental %s are the martyrs. They will wallow around in their misery & when they have had enough they will get out their own way.

When people have problems they can not cope with they tend to get dis-eases. Dis-ease in this culture is our way of saying "I'm tired" or "I'm unhappy". Instead of putting a stop to what is bothering us we would rather get a disease than admit we are not as strong as we are taught we "should" be. Weakness is not allowed in this culture.
